NEWSPAPERARCHIVE®

W[h]ig and Courier.

Wheeler & Lynde, Proprietors

SATURDAY, JAN. 12, 1856.

**For Railroad, Steamboat, Stage, Express and Public House Advertisements see Fourth Page. For Bounty Land notices see First Page. For "City of Bangor" advertisements see first page.*

This Journal is in favor of a "judicious" prohibitory law—using the word prohibitory in the sense of restraining.—*Bangor Journal.*

And the Journal heartily approves of Governor Wells' plan, which proposes the licensing of "as many sellers as will *conveniently accommodate the purchasers.*"

But, says the Journal, your construction of the phrase is not a fair one,—"Governor Wells is not in favor of free trade in liquor, or of any measure tantamount to it." In answer to this, we say that Governor Wells declares himself in favor of licensing the sale of liquors as a *beverage*—remarking that the use of stimulants "has prevailed among all nations since the earliest times." And having thus declared his belief that liquors should be sold as a beverage, he afterwards recommends as above, that as many sellers should be licensed "as will conveniently accommodate the purchasers." Now whether the Governor meant it, or not, we contend that his recommendation carried into effect, *would* inaugurate an era of free liquor traffic. How is the Journal going to manage with any other construction? Will it say that the Governor intended to accommodate only a part of the community with liquors—that none but the "respectable" portion of the people should be allowed to drink? How is the traffic to be, in any sensible degree, "restrained," if all purchasers are accommodated?

Governor Wells recommends the appointment of *Commissioners* to take charge of the business of selling *timber lands*,—the office of Land Agent to remain as at present, but that officer to be allowed to sell none but settling lands. The Governor thinks this course would be "best calculated to prevent favoritism." That is, the Land Agent cannot be trusted, but Land *Commissioners* may be trusted. The recommendation appears to us not a very wise one—although it may be convenient for gentlemen who want offices from the Governor, and find them growing rather scarce under the rapid restriction of executive patronage. The danger of *favoritism* in the sale of timber lands, it strikes us will be rather increased than diminished, by changing the agency to a Board of Commissioners—for the responsibility of a questionable act is often freely assumed by a board composed of several persons, when no one of them would venture to take it individually.

SUPREME COURT. *Jan 11th.* In the case of Enoch P. Davis vs. City of Bangor, for damages for injuries received from obstruction in the highway—(said obstruction being a load of trees standing on Kenduskeag Bridge and frightening the horse driven by plaintiff)—the jury rendered a verdict of $500 for plff. Peters for plff, Wakefield for deft.

Joseph H. Jennings vs. J. L. Drake. Continued on report. J. Hill for plff, A. L. Simpson for deft.

The case of Wm. H. Vinton vs. Philip Weaver, for assault and battery, was on trial in the afternoon.

The Belfast Free Press denies the statement made by an Augusta correspondent of the Belfast Journal, to the effect that the election of Lot M. Morrill as President of the Senate is an indication of Buchanan's strength in the Legislature. The Free Press says that "nineteen twentieths of the democratic members are ready to sustain the measures and policy of the Administration." That may be—but they will not sustain the *man* of the present administration. Pierce is not the man for the *outs*, of course.

ELEGANT EXTRACT.—The Journal's Augusta correspondent has the following beautiful passage in his last letter:

Even now the imagination looks with compassion upon the pain with which the bowels of Kent, the spleen of Washburn, the gizzard of Benson, and the gall of Fessenden will sympathetically agonize over the solemn pageant.

AUCTION SALE OF PROVISIONS, GROCERIES.—An auction sale of Provisions, Groceries, store furniture &c. takes place to-day, (Saturday) by R. S. Prescott, auctioneer, at his rooms on Central Street. See advertisement.

The Journal still advocates the establishment of distilleries in this State,—and can see no other objection to them than the "disagreeable odors arising from the process of distillation." It knows nothing of any other "woes" which may surround them.

RAPID PROGRESS.—"S." who writes from Augusta to the Bangor Journal, (presumed to be Mr. Sanborn himself) speaks in his last letter of "the Democracy of Maine, UNDER WHATEVER NAME."

The Waterville Mail acknowledges the reception of the foreign news from New York, by way of Bangor, having received a copy of the Whig containing the Arago's intelligence "considerably in advance of any other paper."

The statement that the steamer Plymouth Rock, ashore at Hart Island, had become a total wreck by the recent storm, is now contradicted. It is said her back is *not* broken, and that she will probably be got off.

THE RECENT SNOW STORM. We learn from the New Haven Palladium that such a body of snow has not fallen in that city for twenty years. The railroads are all getting clear. The storm through-out Connecticut was very severe, and the fall of snow great. The drifts are deeper than any known since 1836.

BALTIMORE, Jan. 8th. The American State Council have nominated J. M. Botts for the Presidency. The Richmond Whig denounces this as a misrepresentation of the sentiments of the American party in that State.

"Grandma," said a little urchin, "your spectacles are up side down. Do you wear them thus to *see* to *sew*?" "No, my dear; I wear them *so to see*."

The State of [Maine] at the head of [the] [Unit]ed States.

The following tables from the American Journal of Education will interest every friend of popular education. The first table gives the comparative rate of education in America and Europe:

States	One Scholar to	States	One scholar to
Maine	3. persons	Belgium	8.3 p[ersons]
Upper Canada	4.4	France	10.6
Denmark	4.0	Lower Canada	12.6
United States	4.9	Austria	13.7
including slaves	5.6	Holland	14.3
Sweden	5.6	Ireland	14.5
Saxony	6.0	Greece	18.0
Prussia	6.2	Russia	50.9
Great Britain	7.5	Spain	45.0
Norway	7.0	Portugal	81.7

Comparing the States with each other and with Canada, the Journal obtains the following result:

Number of scholars to whole population	Proportion of scholars to children of school's [age]
In U Canada	1 in [illegible] per cent	76 per cent
[illegible]	8	43
State of Maine	33	93
United States	29	64

According to these tables, Maine leads the world in the important matter of Education. No wonder she has given the world a prohibitory liquor law. The bulk of her people know too much to ruin themselves with drink. [Hon]or to Maine.—*Zion's Herald.*

Foreign Correspondence.

[The following letter is from a young townsman who has recently gone to Europe to complete his studies.]

HAMBURG, Dec 12, 1855.

There is little of new interest about the war. The fleet which is expected to accomplish so much in the Spring, lies state winter quarters in the Baltic. The great ship, "Duke of Wellington" is thought to be one of the most [formidable in] the world, and is [at]tended by many, though she is not I believe so large as our ship of the line Pennsylvania. The British papers, as you have very likely seen, say, "Let us give the command of the land forces to the French for it is proper they should take the lead, provided they give us the command of the naval forces." The first part of the proposition is certainly very reasonable, since the siege of Sebastopol. Whether Napoleon will agree to the latter, is not so certain.

There is a strong feeling that America, with all its sympathies to Russia. Almost every day I am assailed with something of the sort, but it has doubtless arisen in a great degree from the Enlistment difficulty. England has been quietly a business of enlisting in Holstein. As we were coming up the Elbe, a British steamer came along stopping to take in volunteers who came off in boats. Their recruiting station is the little Island of Heligoland, belonging to Great Britain, and near the mouth of the Elbe. From this [island] she has taken one hundred and eighty [Germans] who seem very ready to go. I asked one "Why do you let England take your [men]?" "My dear sir! how can we help it?"

The American vessel Rio Grande, Capt. Petey, belonging in Bath, lies here with a cargo of sugars. I doubt if she gets away this winter. She got aground while being towed up, and needs some repairs. The river is already closed. Night before last the captain, second mate and carpenter came on shore contrary to orders, and were arrested by the police at the Captain's direction. They stayed in the guard house all night, and were brought to the Consul's office yesterday morning. The mate was in a great rage and swore he would never go on board the ship again. The Consul gave him his choice between doing that or going to the guard house again. He chose the latter. His name is Connor, from Boston. The others returned to their duty. The police had quite a struggle in arresting them. They secured a slung shot which Connor had used. The head of the second mate was considerably bruised with their clubs.

The official instructions to Consuls about giving passports now is troublesome. To those who have declared their intentions of becoming citizens—like Kossuth—*none* can be given. And even those who have become naturalized citizens, and travel under a passport from the Secretary of State, cannot be properly protected. *There are now hardly American citizens serving in the Russian army.* This is becoming a great check to emigration. Emigrants generally wish to return in two or three years, to see about their property. When they land and go to the American Consul for a passport he cannot give them any, and they *cannot stir*. This is becoming known through Germany and is checking emigration.

The other principle is an absurdity. That a man after becoming a citizen of the United States—in full—paying taxes and liable to serve there, is yet liable to serve if he returns to his native land. Carry it out. Suppose the United States goes to war with Prussia. Suppose she takes some of these men. They are her own citizens, yet found fighting against her. They must be condemned as traitors. So, too, Prussia would have a right to hang every man she took who had left Prussia before he had served his time in her army. There is no appeal, so long as the United States acknowledges the right of Prussia to make soldiers of our naturalized citizens. Bah! I have no more time now. In haste.

Sincerely yours.

MONETARY AFFAIRS.—*Boston Thursday Morning Jan 10.* The foreign news by steamer Canada seemed to have created little or no impression in State street. So far as the prospects of peace are indicated by the accounts gathered from various sources, there appears to be nothing definite enough to inspire confidence in such a desirable event, but the mere fact that propositions have gone forward gives rise to hopes of a satisfactory conclusion. The money news is not favorable, if we may judge by the telegraphic accounts, although a small gain of bullion is reported in the Bank of England. Consols were a fraction lower.

The Stock market was more active yesterday, and the disposition to buy is increasing.—*Boston Journal.*

ACCIDENT. We learn from the Gardiner Gazette, that Mr. Jesse Tucker, of West Gardiner, a worthy and esteemed young man, died on Thursday evening last from injuries received by falling from the great beams of his barn to the floor, on the Monday previous, breaking his wrist, both his arms, and the collar bone near the left shoulder, besides receiving internal injury.—*[Augusta Age.]*

A CASE OF SUFFERING AND INHUMANITY.—The Waterville Mail relates the following:

On Wednesday night of last week, a widow with half a dozen children, who were brought from Clinton to take the cars for Gardiner, remained all night on the open piazza of the A. & K. Railroad! Start not, ye mothers, and men with human hearts—it is true! It is also true that they did not die—but shivered, and wept, and suffered, and lived, through that bitter cold night! But how did it happen, and who is to blame? A man from Clinton, named Priest, had been hired to bring them to Waterville, and having done so and taken his pay, he left them to take care of themselves.—They were poor even to beggary, and after the depot was closed for the night, and the men having care of it had left, they went to the door and waited till it should open. They were the wife and children of a drunken father and husband, who died by the side of the road—and by the side of a jug—a year or two ago, and in their poverty and degradation they knew not what else to do. Nobody saw them but the watchman; and they, from some misjudgment of circumstances which they must explain for themselves, failed to get their hearts warm enough to extend warmth to the shivering mother and children. God forbid that we should insinuate that they knew how sadly those little ones needed their aid. That that was a terrible night to those children of poverty, is a plainer case.

As morning approached, their cries awoke those who warmed and fed them; and when their condition was known, some of the big-hearted men employed by the road—God bless them!—raised a liberal purse, and some warm clothing, and sent them on their way, the S. & K. Railroad passing them free to Gardiner.

The Hartford Times says the thick coating of ice upon the cherry, pear and peach trees has served to protect them from the frost, and at the same time has acted in the capacity of a *burning glass*, by concentrating and intensifying the rays from the sun, until the unseasonable warmth thus imparted has had the effect of starting the flow of sap, and developing the buds.

A modern philosopher taking the motion of the earth on its axis at seventeen miles a second, says that if you take off your hat in the street to bow to a friend, you go seventeen miles bareheaded, without taking cold.

A Misunderstanding.

From the Portland Advertiser.

[The following comes to us from a correspondent who has a high regard for both the gentlemen alluded to, and is anxious that the matter in controversy may find a friendly solution. We are more inclined to publish it (although private matter,) because there is something to our minds, in it bearing a strong resemblance to a matter of dispute in higher quarters, growing out of the Clayton Bulwer treaty or agreement.]

SACO, ME., Dec 29, 1855.

There is a misunderstanding between Captain Jumper and Major Downing, and from very reliable authority I learn that the matter in dispute stands thus:—The "Two Pollies" was never owned by Capt. Jumper or the Major. Capt. Jumper had been in command of her, and the Major had often been a passenger, and sometimes a supercargo, and always had a free passage by finding his own stores and doing his own share of pumping. He had been so often at sea on board the "Two Pollies," that, he knew just as well how to navigate her as Capt. Jumper did, and this, no doubt, gave rise to a little jealousy, for the real owners of the celebrated vessel had as high an opinion of the Major as they had of Captain Jumper.

So the Major and the Captain took it into their heads one day to enter into a written agreement that neither of them would set up any claim to the command of the "Two Pollies" after that date. When this paper was signed and true copies interchanged they took a drink of "switchel" and shook hands.

After a time some talk was had about this agreement, and the Major thought it a little strange that Captain Jumper persisted in holding on to the command of the "Two Pollies." So he gave him a gentle hint that he was acting contrary to the agreement.

Capt. Jumper answered that as he understood the agreement, he had a right to hold on, as he happened to be in command at the time the agreement was made, and no one knew him to give up what he already had. Then the Major asked Captain Jumper if he ever knew a man by the name of Downing to be such a fool as to admit of such a construction on so plain an agreement? And here they parted. Capt. Jumper put on his tarpaulin jacket, and Major Downing was last seen grinding up his axe.

The matter is much talked about, and all the friends of Major Downing, of course, back him up. Not so much, they say, on the ground of any loss or gain in the matter, but on the ground that any man, especially Capt. Jumper, should think the Major capable of making such a "jug handle" as the Captain claims this to be—and the handle on the Captain's side too.

The Major is nettled beyond anything, on account, as he says, "of being thought a Soft Skull by such a mutton headed old tar pot as Captain Jumper."

As the matter now stands, Captain Jumper is thought to be entirely wrong. He belongs to a stubborn, grasping family, inclined to keep all they have, and getting all they can, especially when their agreements are written in foreign lingo. But this time it is written in plain English, and he must give in or there will be trouble. The quarrel is much regretted, as they were old friends.—They can together do even other much good, and there is no telling the harm they can do.—*N. Y. Com. Adv.*

FREE STATE NOMINATIONS AT KANSAS. The Free State Convention of Kansas held its session at Lawrence, on Tuesday, the 22d of December. The Convention held three seperate meetings during the day, and put forth the following ticket to be canvassed at the next election, which takes place on the third Tuesday in January.

For Governor—Charles Robinson, of the Republican party. For Lieutenant-Governor, W. Y. Roberts, National Democrat. For Congress—M. W. Dellahay, National Democrat. Secretary of State—P. C. Schingler, Republican. Auditor of State—G. A. Cutler, Republican. Treasurer of State—G. A. Wakefield, Republican. For Supreme Judges—S. M. Latta, Whig, M. F. Conway, Freesoil Democrat, Morris Hunt, Whig. Clerk of Supreme Court—J. D. Floyd, Democrat. Reporter of Supreme Court—Mr. Thurston, Democrat.—State Printer—Mr. Speer, editor Kansas Tribune, Republican.

There was a full representation from all parts of the territory. Colonel Lane, the opponent of Robinson for the nomination for Governor, was defeated by a vote of 65 to 22. After the result was known, he addressed the convention and urged a warm support of the ticket.

A vast work is about to be undertaken in Mexico, which will do more to revolutionize that country effectually and for permanent good than all the political schemes that might be undertaken in a century to come. It is the construction of a railroad from Vera Cruz to the City of Mexico—some 300 miles. British, French and Mexican capitalists are principally interested in this great scheme; but of course American enterprise will co-operate in advancing an undertaking which, in its results, must be so advantageous to our commerce and connections. $6,000,000 have already been subscribed by firms in the City of Mexico, and it is not proposed to issue bonds upon the construction as it progresses, after the too prevalent fashion, but to build only upon *bona fide* capital. $12,000,000 is the estimate cost of the whole road. The work will be commenced about the middle of March, beginning at the City of Mexico. An American Superintendent, familiar with the building of railroads in the United States, and a corps of American Engineers, are about to start for this destination, in order to commence the preliminary operations immediately. Some of the most distinguished men and the ablest financiers in Mexico have enlisted in the enterprise, and secured it that material aid which is so necessary to success.—*Wash. Cor. N. Y. Tribune.*

One of the most singular contrasts, we have met with, was that between the *shroud of gold* in which the body of an Indian was discovered, in excavations making for the rail road at Arica, Peru, and the object of the work which brought it into light. There, in that splendid shroud, lay the old chief, disinterred by a party of toiling, prodigal rail-road laborers, with an object in view which neither the ancient class or either of the persons, who buried him could possible have dreamed of. It was perfectly in *keeping* with this sudden resurrection, that the workmen should have appropriated his shroud, and suddenly divided it among themselves. It would be highly imprudent to bury anybody in this fashion now-a-days, and not safe for a hearse, with a golden shroud inside weighing eight or nine pounds, to be on the highways. Such is the contrast between the old and the new.

GOOD TROTTING. H. G. Thaxter, of this city, trotted his horse to Frankfort, yesterday, a distance of thirteen miles, in forty four minutes.—*Journal.*

"The Abolitionists (of Kansas) have come the Yankee over us this time—the Governor has betrayed us. He has betrayed himself, the South, and the whole of the pro-slavery party. We had them just where we wanted them, and he spoiled all. Next time we must plan for ourselves."

Thus mourns the immortal Stringfellow over the rout of his associates. But it was neither the "Abolitionists," nor the Governor, but "Sharpe's Rifles" which came "the Yankee over" the "Ruffians." Prepared saltpetre is ever more "villainous" than Yankee "Abolitionists;" and but for the apprehended results likely to flow from it, there would have been a massacre in Lawrence.—*Albany Journal.*

It is unprofitable to winter old hens, if such not sold in August or September, when they were worth double what they are now, fit them as rapidly as possible, and put them in the pot. When the ground is covered with snow, see that your fowls are provided with plenty of gravel, lime, pounded bones, or oyster shells, and occasionally with scraps of fresh meat.

GREAT

American and Foreign Office,

—FOR—

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,

No. 76 State Street, opposite Kilby St., BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837) determined to present advantages in applying for patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty, as paid back by others*,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings, necessary to the procural of patents in this and foreign countries, prepared and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britain, France and other foreign countries, through agents of the high est respectability.

R. H. EDDY, *Solicitor of Patents.*

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston did business at the Patent Office as Solicitor for procuring Patents. There were few, if any persons acting in that capacity who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE, Late Commissioner of Patents.

[From the present Commissioner.]

"August 7, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office as a Solicitor. He is thorough ly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse."

CHARLES MASON, Commissioner of Patents.

WASHINGTON, Jan 11.

HOUSE. Mr Sneed withdrew a resolution heretofore offered by him, calling Mr Orr to the chair till a Speaker be elected—believing that as the House refused on Wednesday to order the main question it could not be adopted.

Voting was then resumed, with the following result:

Banks 98, Richardson 70, Fuller 31, scattering 5.

Mr Zollicoffer offered a resolution, declaring that in conformity with the fundamental principles of this great and popular government, it is the duty of all candidates for political positions fully and frankly to avow their opinions on important political questions involved in their election, especially when interrogated by the electors whose votes they are seeking. He said his object was to elicit replies from Mr Richardson on the slavery question, which Mr R. declared himself ready now to answer.

A debate ensued, involving the propriety of the passage of the resolution, which was finally adopted 105 to 38. This opens a wide field for discussion.

WASHINGTON, 11th.

The Supreme Court this morning sustained the claim of Larson B. Reading, to an extensive rancho of Buena Ventura, [granted] thus affirming the principle established in Col Fremont's case. It would seem, therefore that the fact that Reading joined the [army of this] country against Mexico, does not invalidate a grant made by Mex[ico].

The Agricultural Society had a full attendance this morning but little business transacted. Marshall P. Wilder was unanimously re-elected President, with a Vice President from each State. Geo. W. P. Custis made an eloquent address when the convention adjourned. The next Annual Exhibition will be in Philadelphia, next fall.

Difficulty with an English Man-of-War. An arrival from Bermuda brings papers to the 28th ult., from which we learn that the U. S. sloop-of-war Cyane had been to Antigua, to inquire into the taking of a colored seaman from an American vessel under pretence that he was a slave. A British sloop-of-war was in port at the time, and the report says that on entering the harbor the Cyane took a very menacing position in regard to her, and refused to salute the English flag until reparation was made for the insult offered to our government.

Intercourse was had between the commanders of the two vessels—with what result is not stated—but it is said the question has been referred to the higher tribunal. The Cyane left Antigua Dec. 19th.

THESE CASES are extensively used and possess valuable advantages over all others for transportation, Depositing in Vaults, or for ordinary Interments. They are made of the most imperishable Materials, also enamelled inside and out to prevent rust or corrosion, and when properly cemented, we have the gratifying reflection that the bodies of our deceased kindred enclosed in them are *Free from Eruption of Water or Depredations of Vermin*, and may without offensive odor, be kept, obviating the necessity of hasty burials, or if desired, transported to a distant land. ARNOLD'S COMBINED

FOOT-STOVE, LANTERN,

AND

NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for making, vending and using in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm the feet in the coldest weather, and will be found to be an indispensable article in travelling. It is heated by an oil alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes and is less likely to be overset, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage, in keeping drinks or food warm, beside giving the light desired, and for cooking it in small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in a few minutes, and a fire kept at the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be daily discovered by every one. No further description is required, as no one can misunderstand its general utility. To say any thing in its praise, would be adding but a hundred purposes would soon be telling what our readers can judge of at once for themselves.

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patients and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town or country, hospital or private practice, they have invariably been the most decided and unequivocal in their action, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the preparations are recommended. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation and the employment of different instruments, successive operations to take up the extractive matters and in consequence, are most frequently improperly made and not unfrequently imposed, if not rendered totally inert, by the injudicious and unskillful management of those unacquainted with pharmaceutical preparations. It is therefore of the highest consideration and importance to the public, and to the faculty, that there should be standard preparations of uniform strength and possessing the most advantages. To effect this, and obviate the evil alluded to, I have made a number of experiments to ascertain the most efficient mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most suitable form for their exhibition. The experiments have resulted most favorable and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to include in a highly concentrated form, and are the most active preparations which can be made. Two table spoonfuls of the Extract of Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equal in strength, one gallon of Syrup Sarsaparilla or decoction, as usually made.

—PRICES—

Fluid Extract Buchu $1 per bottle, or 6 for $5

Certificates of cures and recommendations from distinguished professors and physicians will accompany each preparation. Prepared and sold by

The Great European Cough Remedy.

Important to Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS safe, an effectual Remedy for Coughs of every description whether of children or adults, of recent or long standing.

PREPARED ONLY BY

REV. WALTER CLARK,

Sole Proprietor, Cornville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged, and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of this blessing.

Sold in trial bottles, 25 cents each, large settles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine

FEBRUARY, 17th, 1853.

To Rev. Walter Clark. Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on my wife. She had been afflicted with a cough for two years that bottle entirely removed it.

From Rev Jesse Hoyt, Lewiston Falls

Brother Clark—I very cordially recommend the Universal Cough Mixture which you left with me to be sold—and I have several times had occasion to use it. As far as heard from, all have been perfectly satisfied with the medicine. One man, who had a cough that was of long standing, attended with tightness of the chest and shortness of breath, so that he was laid aside from business, purchased one large bottle, and before he had taken one third of it was perfectly cured and has had no cough since. He says that the best medicine in the world, and cannot be recommended too highly.

JESSE HAYES.

From Mr Fletcher Chick, agent for North Dixmont, Maine

Dear Sir—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had been troubled for years with coughs, and who have been doctored six months without receiving any benefit, have been speedily cured by the Universal Cough Mixture.

From Mrs Hubbard, Thorndike, Me,

FEBRUARY 1, 1854.

To Rev. Walter Clark. Dear Sir—The certificate that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine and had been under the care of several physicians without obtaining the least relief, I was happy your Universal Cough Mixture was recommended to me. I procured a bottle, which I began to take according to directions on the label, by which in a few days I was entirely cured.

KENNEDY'S

MEDICAL DISCOVERY.

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR* from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing upon the pastures and along old stone walls should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week.—There is never a bad result from it—on the contrary, when that feeling is gone you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept 19, 1853.

This is to certify that H. H. HAY, Druggist, Portland is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory

TESTIMONY FROM MAINE

Capt. Daniel Abbott, Brooklin Maine, July 16 1853, says "I was taken sick one year ago last April, upon my passage from Havana to Charleston S. C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of Hoofland's German Bitters in it, I sent for some immediately. This was about 10 o clock, at 11 o clock I took the first dose, and another at 6 o clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man.—I have not been without your medicine since, having been sailing between Baltimore, Charleston and the West India Islands ever since. I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it."

Jos. B. Hall & Co., Presque Isle, Aroostook Co Maine, April 24, 1854, say: "We herewith send you a certificate of a cure performed by the use of only one bottle of the German Bitters. We think Mr. Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs Jos. B. Hall & Co—Gentlemen:—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years.—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK.

Salmon Brook, Aroostook Co., Me.

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.
